Pic. 2-2, 2-3

3. If printer is alright, please print a picture to see the result.

Note: This system will not cause any damage on your printer.

A and B just equipped with different external ink box, but all the installation steps are the same, please follow them.

## III. Installation Procedures

### 1. Make the system ready

Place the system on the table, check to see if there is any ink in each of the air balance tube. If yes, you need to remove the ink in the balance tubes by the following steps:

- 1) Pull out the sealed plug of the balance tube (3-1-1).
- 2) Use the injector to draw ink out.
- 3) Put the sealed plug back.
- 4) Pull refill plug out.
- 5) Inject the ink in the injector into the ink holding tank according to its color.
- 6) Put the ink refill plug back.
- 7) You should check all the plugs to make sure they are completely sealed.

Pic. 3-5-3

### 6. Check tube length

Move cartridge holder to left side (3-6-1), then to right side (3-6-2), check if the tube is too long or too short. Move cartridge holder to right side, check if ink tube will fall down during movement, if fall down like (3-6-3), the holder will be blocked during printing. Generally, before shipment, we have adjusted the tube to the right size, please double check before printing.

Pic. 3-6-2

## 7. Adjust tube length

If step 6 is ok, then there is no need to go through this step.

If the tube length is too short then lengthen (3-7-1) it, if too long then shorten (3-7-2). If the tube falls down, you need adjust the angle of sticker to prevent falling.

## 9. Ready for printing

Plug on power source (3-9-1), turn power on (3-9-2) and check whether printer is working.

Pic. 3-9-1

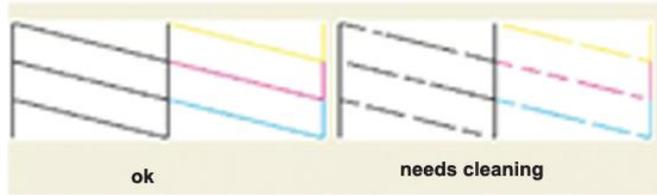

Pic. 3-9-2

## 10. Test printer nozzle

Select the option for printer nozzle check (3-10-1), print test sheet, if it is alright (3-10-2), you can start using the printer normally. If it is not (3-10-3), please clean the nozzle. If only line is missing for one color after cleaning several times, turn off the printer and let it stay turned off for one hour or more. The air bubble clogging up the nozzle is likely to dissipate, allowing you to print. If you still have problems, please contact your local distributor.

#### IV. Ink Amount Reset

It requires to change cartridges while printing (4-1-1) and ink light flash (4-1-2). Press ink button to move out cartridge holder. Press chip reset button for 3 seconds (4-1-3), repress ink button to move back cartridge holder, then ink amount shows 99% again. Redo nozzle inspection and printer can run normally if it is alright. (Black and other colors can be handled by the same method).

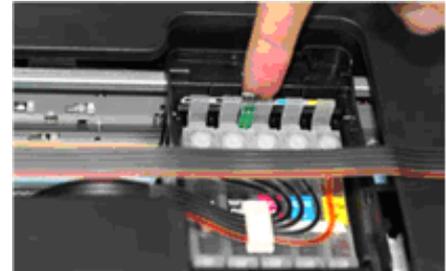

**Note:** Distinguish two kinds of chips (4-1-4). The manipulation is the same. The difference is that the chips with transferred switch should be switched downwards (4-1-5), otherwise, chips can not be recognized.

Pic. 5-1-2

Pic. 5-1-3

## VI. Refill ink

During printing, if you found out that the ink level in the tank is below the red line, please add ink according to the methods.

## VII. Check air balance tube

During printing, if you find some abnormal cases, such as bad output, ink drip out on paper, then you need to check the air balance tube to see if exist ink. If yes, please do according to the manual of "ink pump out from balance tube".

## VIII. Warnings

1. During printing, please do not take cartridges over than the printer. Please keep ink tank and printer in the same level.
2. During printing, do not inverse, lift up or lower ink tanks.
3. Please do not block up ink tanks for curiosity or for fear of less ink
4. Use CISS at clean environment and within the temperature range 15-35 degrees.

## IX. Product Warranty

INKSYSTEM warrants its products to be free from defects in material or workmanship. Rarely the equipment partly or completely fails within the warranty period. In these cases we do everything possible to ensure that our customers are satisfied with the purchase.

The INKSYSTEM CISS installation is free in any of the representative offices.

The warranty repairs are done quickly, with good quality and for free. The warranty duration is 12 months from the date of retail sale. Every product has a Warranty Certificate. The transportation of the failed product is provided by its owner.

**Please adhere to the following points to receive a warranty service as soon as possible:**

When accepting the product check if the warranty certificate is filled in correctly.
