A. Check whether all the accessories are available or not.
B. Check whether the system is pulling out if tube is disconnected
II. Test printer
1. Check printer status to see whether it is normal or not, and check its mechanics for smooth and any damage.
2. Print a test sheet on nozzle check to see if gaps appear on lines in the printout.

3. If printer is alright, please print a picture to see the result.
   Note: This system will not cause any damage on your printer.

II. Installation Procedures
1. Make the system ready
   Put this system on the left side of printer, tidy up ink flow tubes (3-1-1), pull the air balance plug out (3-1-2) and replace it with an air filter with the bigger side downwards (3-1-3). This is repeated for each air balance plug. Keep the air balance plugs for future use.

2. Move out cartridge holder:
   A. R260/R265/R270
      Press "cartridge change" button (3-2-1), move cartridge holder out to cartridge change position, plug off power source (3-2-2).
B. R360/R380/R390
C. RX560/RX580/RX590/ RX585/RX595/R^610/RX680

Press "setup", Press " ►" to InkLevels", then press "OK", press "▼" to "Change Ink Cartridge", choose "OK". Mover out cartridge holder (3-2-3), plug off the power source.

3. Take cartridge cover off
A. R260/R265/R270
B. R360/R380/R390

Use screwdriver (3-3-1), push screwdriver forward to let cartridge cover move for 2mm (3-3-2), use hand to press cover clip, use screwdriver to insert (3-3-3) position, lift up the clip upside (if clip broke, it does not matter), then take away cover clip and take cartridge cover off.
Open cartridge cover a little, insert screwdriver as (3-3-5), push screwdriver, lift up cartridge cover, then take cover off.

12. Product Warranty
INKSYSTEM warrants its products to be free from defects in material or workmanship. Rarely the equipment partly or completely fails within the warranty period. In these cases we do everything possible to ensure that our customers are satisfied with the purchase.

The INKSYSTEM CISS installation is free in any of the representative offices.
The warranty repairs are done quickly, with good quality and for free. The warranty duration is 12 months from the date of retail sale.
Please note that the ink and the photo paper are expendable materials and there can be no returning of unsealed ink tanks and photo paper packages. When defects are found by the service managers, a replacement for a new product is performed.

Please adhere to the following points to receive a warranty service as soon as possible:
When accepting the product check if the warranty certificate is filled in correctly.

- Keep the original receipt that contains the date of purchase information.
- Adhere to operating conditions that are provided in the User’s Manual, or on the web-page of the specific product.

We cannot provide a warranty repair under several conditions:

- If the warranty certificate is wrongly filled in.
- If the device has mechanical damages: chippings, dents, fractures, scratches, etc.
- If the identification information was removed or the information identification has been complicated in any possible way: additional notes, stickers, etc.
- If the user has previously performed a repair or change in the internal parts of the device.

The “INKSYSTEM” Company excludes for itself any liability for incidental, consequential, indirect, special, or punitive damages of any kind to people, pets or property if the stated damages have been affected because of rules and operational conditions / product installation disregard. The Company also excludes any liability for intentional or careless actions of the user or third parties, for loss of revenue or profits, loss of business, loss of information or date, or other financial loss arising out of or in connection with the sale, installation, maintenance, use, performance, failure, or interruption of the possibility of such damages.
